Passionate about programming from an early age, I have cultivated a love for software development since childhood. From my first experiments with lines of code to building my own projects, every challenge has been an opportunity to learn and grow. Logic, creativity, and problem-solving have been fundamental pillars throughout my journey, constantly driving me to explore new technologies and methodologies.

PROFESSIONAL EXPERIENCE

Metrica — **Seville, Spain**

Full Stack Developer — *February 2025 – Present*

- Developed and integrated advanced features in the incident notification system, including dynamic synchronization of insurance entities and companies in Angular.
- Optimized the Java backend with Spring Boot and MyBatis, implementing efficient conditional logic and in-memory structures to avoid redundant queries.
- Automated task workflows and status transitions without SAP interaction, improving operational efficiency and reducing system complexity.

Tech Stack:

- **Frontend:** Angular, TypeScript/JavaScript, NodeJS, JQuery
- **Testing:** JUnit, Mockito
- **Backend:** Java 11/12, Spring Boot, Hibernate, JPA, Microservices, REST Services
- **Database:** PostgreSQL, Oracle, MariaDB
- **CI/CD:** Jenkins, SonarQube
- **Version Control:** Git/GitLab

Virtual Desk — **Seville, Spain**

Full Stack Developer — *July 2024 – February 2025*

- Optimized and improved a key application for a government ministry, implementing new features and enhancing the user experience.
- Automated registration processes, reducing wait times and increasing operational efficiency.
- Implemented strategies to improve system scalability and maintainability.
- Applied development best practices, improving code quality and accelerating the delivery of new releases.

Tech Stack:

- **Frontend:** Angular, TypeScript/JavaScript, NodeJS, JQuery
- **Testing:** JUnit, Mockito
- **Backend:** Java 11/12, Spring Boot, Hibernate, JPA, Microservices, REST Services
- **Database:** PostgreSQL, Oracle, MariaDB
- **CI/CD:** Jenkins, SonarQube
- **Version Control:** Git/GitLab

Alten — **Seville, Spain**

QA Engineer – Automation Tester — *March 2024 – July 2024*

- Optimized and automated testing for a hotel booking platform, improving error detection and reducing manual validation time by more than 15%.
- Developed and maintained automated tests using Selenium and JUnit.
- Implemented regression and smoke tests to catch failures before each deployment.
- Documented critical endpoints to streamline onboarding of new team members.
- Produced detailed reports with key quality metrics.

Tech Stack:

- **Testing:** JUnit, Mockito, Selenium
- **CI/CD:** Jenkins, SonarQube
- **Version Control:** Git/GitLab
- **Database:** PostgreSQL, Oracle

MTP **Seville, Spain**

Full Stack Developer *March 2023 – February 2024*

- Developed reusable components for an internal application used to generate test clients.
- Implemented UI improvements and functionality optimizations.
- Integrated development best practices to improve code maintainability.

Tech Stack:

- **Frontend:** Angular, TypeScript/JavaScript, NodeJS, JQuery
- **Backend:** Java 17, Spring Boot, Hibernate, JPA, Microservices, REST Services
- **Database:** PostgreSQL, Oracle
- **Infrastructure:** Docker, Kubernetes, IBM Cloud
- **CI/CD:** Jenkins, SonarQube
- **Version Control:** Git/GitLab

EDUCATION

Salesianos de San Pedro **Seville, Spain**

Higher Technician Degree in Multi-Platform Application Development *2023*

ADDITIONAL SKILLS

- **Web Design:** HTML5, CSS3, WordPress, Figma, Flaticon
- **Frameworks:** Spring, Angular, Django, NestJS, Bootstrap, Flask, ASP.NET Core
- **Programming Languages:** Java, Python, JavaScript, TypeScript, Dart, SQL, ReactJS
- **Testing:** JUnit, Mockito, Selenium
- **Middleware:** Kafka Connector, Event-driven architecture
- **CI/CD:** Jenkins, SonarQube
- **Infrastructure:** Docker, Kubernetes, IBM Cloud
- **Tools & Technologies:** GitHub, Docker, Trello, SourceTree, Jira, Slack, Maven, Gather
- **Soft Skills:** Self-taught, Problem-solving, Assertive, Team player, Critical thinking

---

LANGUAGES

- **Spanish:** Native
- **English:** B2 (Upper-Intermediate)

AVAILABILITY

- **Availability:** Full-time, immediate
- **Mobility:** Own car and valid driving license
